</table>
The negative impact of being underweight and weight loss on survival of children with acute lymphoblastic leukemia
Marissa A.H. den Hoed, et al.

Focused chemical genomics using zebrafish xenotransplantation as a pre-clinical therapeutic platform for T-cell acute lymphoblastic leukemia
Victoria L. Bentley, et al.

Chronic Lymphocytic Leukemia
Ibrutinib interferes with the cell-mediated anti-tumor activities of therapeutic CD20 antibodies: implications for combination therapy
Fabio Da Roit, et al.

Non-Hodgkin Lymphoma
Absolute peripheral monocyte count at diagnosis predicts central nervous system relapse in diffuse large B-cell lymphoma
Hideaki Nitta, et al.

Large Granular Lymphocytic Leukemia
The analysis of clonal diversity and therapy responses using STAT3 mutations as a molecular marker in large granular lymphocytic leukemia
Hanna L. M. Rajala, et al.

Plasma Cell Disorders
Retrospective matched-pairs analysis of bortezomib plus dexamethasone versus bortezomib monotherapy in relapsed multiple myeloma
Meletios A. Dimopoulos, et al.

Multiple myeloma and infections: a population-based study on 9253 multiple myeloma patients
Cecilie Blimark, et al.

Stem Cell Transplantation
Cytomegalovirus shapes long-term immune reconstitution after allogeneic stem cell transplantation
Raphael Itzykson, et al.

Red Cell Biology & Its Disorders
The role of inflammation, iron, and nutritional status in cancer-related anemia: results of a large, prospective, observational study
Antonio Maccìò, et al.

The cytoskeletal binding domain of band 3 is required for multiprotein complex formation and retention during erythropoiesis
Timothy J Satchwell, et al.

Letters to the Editor
Letters are available online only at www.haematologica.org/content/100/1.toc

RNA sequencing reveals a unique fusion of the lysine (K)-specific methyltransferase 2A and smooth muscle myosin heavy chain 11 in myelodysplastic syndrome and acute myeloid leukemia
Mathijs A. Sanders, et al.
http://www.haematologica.org/content/100/1/e1
Biomodulatory therapy induces complete molecular remission in chemorefractory acute myeloid leukemia
Simone Thomas, et al.
http://www.haematologica.org/content/100/1/e4

A phase I trial of ribavirin and low-dose cytarabine for the treatment of relapsed and refractory acute myeloid leukemia with elevated eIF4E
Sarit Assouline, et al.
http://www.haematologica.org/content/100/1/e7

Clinical features and outcome of SIL/TAL1-positive T-cell acute lymphoblastic leukemia in children and adolescents: a 10-year experience of the AIEOP group
Mariella D’Angiò, et al.
http://www.haematologica.org/content/100/1/e10

Three novel fusion transcripts of the paired box 5 gene in B-cell precursor acute lymphoblastic leukemia
Grazia Fazio, et al.
http://www.haematologica.org/content/100/1/e14

Reduced dose pentostatin for initial management of hairy cell leukemia patients who have active infection or risk of hemorrhage is safe and effective
Leslie A. Andritsos, et al.
http://www.haematologica.org/content/100/1/e18

Paradoxical central nervous system immune reconstitution syndrome in acquired immunodeficiency syndrome-related primary central nervous system lymphoma
Sarah M. Kranick, et al.
http://www.haematologica.org/content/100/1/e21

Recurrent presence of the PLCG1 S345F mutation in nodal peripheral T-cell lymphomas
Rebeca Manso, et al.
http://www.haematologica.org/content/100/1/e25

Invasive fungal infections in patients with multiple myeloma: a multi-center study in the era of novel myeloma therapies
Benjamin W. Teh, et al.
http://www.haematologica.org/content/100/1/e28

Circadian and circannual variations in cord blood hematopoietic cell composition
Sophie Servais, et al.
http://www.haematologica.org/content/100/1/e32

Incidence and risk factors for venous thromboembolism after laparoscopic surgery for colorectal cancer
Cecilia Becattini, et al.
http://www.haematologica.org/content/100/1/e35

Comments
Comments are available online only at www.haematologica.org/content/100/1.toc

Radotinib in the treatment of chronic phase chronic myeloid leukemia patients
Ahmet Emre Eskazan, et al.
http://www.haematologica.org/content/100/1/e39

Comment on: ‘Should clinical hematologists put their microscopes on eBay?’
Shaun R. McCann
http://www.haematologica.org/content/100/1/e40

Answer to Comment on the Editorial ‘Should hematologists put their microscopes on eBay?’
Mars van ‘t Veer, et al.
http://www.haematologica.org/content/100/1/e41
