Cover Figure
Late effects of blood and marrow transplantation (image generated by www.somersault1824.com)

Editorials
611  Acute lymphoblastic leukemia of the central nervous system: on the role of PBX1
Ameera Alsadeq and Denis M. Scheue

Review Article
614  Late effects of blood and marrow transplantation
Yoshihiro Inamoto and Stephanie J. Lee

Guideline Article
626  Risk factors for mortality in adult patients with sickle cell disease: a meta-analysis of studies in North America and Europe
Poulami Maitra et al.

Articles
Hematopoiesis
637  Dual role of IL-21 in megakaryopoiesis and platelet homeostasis
Salima Benbarche et al.

647  A population of hematopoietic stem cells derives from GATA4-expressing progenitors located in the placenta and lateral mesoderm of mice
Ana Cañete et al.

Lysosomal Storage Disease
656  Efferocytosis is impaired in Gaucher macrophages
Elma Aflaki et al.

Red Cell Biology & its Disorders
666  Associations between environmental factors and hospital admissions for sickle cell disease
Frédéric B. Piel et al.

676  Erythrocyte survival is controlled by microRNA-142
Natalia Rivkin et al.

Hemostasis
686  Factor VIII/V C-domain swaps reveal discrete C-domain roles in factor VIII function and intracellular trafficking
Eduard H.T.M. Ebberink et al.

Platelet Biology & its Disorders
695  The transcription factor GATA1 regulates NBEAL2 expression through a long-distance enhancer
Anouck Wijgaerts et al.
Acute Myeloid Leukemia

707  CD244 maintains the proliferation ability of leukemia initiating cells through SHP-2/p27'''' signaling
Feifei Zhang et al.

719  Phase I study of the aurora A kinase inhibitor alisertib with induction chemotherapy in patients with acute myeloid leukemia
Amir T. Fathi et al.

728  Lenalidomide combined with intensive chemotherapy in acute myeloid leukemia and higher-risk myelodysplastic syndrome with 5q deletion. Results of a phase II study by the Groupe Francophone Des Myéloïdysplasies
Lionel Ades et al.

Acute Lymphoblastic Leukemia

736  CREBBP knockdown enhances RAS/RAF/MEK/ERK signaling in Ras pathway mutated acute lymphoblastic leukemia but does not modulate chemotherapeutic response
Zach A. Dixon et al.

Chronic Lymphocytic Leukemia

746  miR-125b and miR-532-3p predict the efficiency of rituximab-mediated lymphodepletion in chronic lymphocytic leukemia patients. A French Innovative Leukemia Organization study
Anne-Laure Gagez et al.

Non-Hodgkin Lymphoma

755  Inhibition of 4EBP phosphorylation mediates the cytotoxic effect of mechanistic target of rapamycin kinase inhibitors in aggressive B-cell lymphomas
Chengfeng Bi et al.

765  Safety and efficacy of obinutuzumab with CHOP or bendamustine in previously untreated follicular lymphoma
Andrew Grigg et al.

Plasma Cell Disorders

773  IL21R expressing CD14+CD16- monocytes expand in multiple myeloma patients leading to increased osteoclasts
Marina Bolzoni et al.

785  Serum B-cell maturation antigen: a novel biomarker to predict outcomes for multiple myeloma patients
Michael Ghermezi et al.

Cell Therapy & Immunotherapy

796  Increased age-associated mortality risk in HLA-mismatched hematopoietic stem cell transplantation
Daniel Fürst et al.

Letters to the Editor

Letters are available online only at www.haematologica.org/content/102/4.toc

e120  Plerixafor and G-CSF combination mobilizes hematopoietic stem and progenitors cells with a distinct transcriptional profile and a reduced in vivo homing capacity compared to plerixafor alone
Maria Rosa Lidonnici et al.
http://www.haematologica.org/content/102/4/e120

e125  Acute myeloid leukemias with ring sideroblasts show a unique molecular signature straddling secondary acute myeloid leukemia and de novo acute myeloid leukemia
Pedro Martín-Cabrera et al.
http://www.haematologica.org/content/102/4/e125
Impact of FLT3-ITD diversity on response to induction chemotherapy in patients with acute myeloid leukemia
Mike Fischer et al.
http://www.haematologica.org/content/102/4/e129

Long-term relapse-free survival in a phase 2 study of blinatumomab for the treatment of patients with minimal residual disease in B-lineage acute lymphoblastic leukemia
Nicola Gökbuget et al.
http://www.haematologica.org/content/102/4/e132

The central nervous system microenvironment influences the leukemia transcriptome and enhances leukemia chemo-resistance
Jeffrey S. Gaynes et al.
http://www.haematologica.org/content/102/4/e136

Peripheral neuropathies in chronic lymphocytic leukemia: a single center experience on 816 patients
Chiara Briani et al.
http://www.haematologica.org/content/102/4/e140

Integration of B-cell receptor-induced ERK1/2 phosphorylation and mutations of SF3B1 gene refines prognosis in treatment-naïve chronic lymphocytic leukemia
Chiara Cavallini et al.
http://www.haematologica.org/content/102/4/e144

Integrative clinicopathological and molecular analyses of angioimmunoblastic T-cell lymphoma and other nodal lymphomas of follicular helper T-cell origin
Maria Pamela Dobay et al.
http://www.haematologica.org/content/102/4/e148

Hematopoiesis in patients with mature B-cell malignancies is deregulated even in patients with undetectable bone marrow involvement
Bokang Calvin Lenyeletse Maswabi et al.
http://www.haematologica.org/content/102/4/e152

Efficacy and safety of idelalisib in patients with relapsed, rituximab- and alkylating agent-refractory follicular lymphoma: a subgroup analysis of a phase 2 study
Gilles Salles et al.
http://www.haematologica.org/content/102/4/e156

Case Report
Case Reports are available online only at www.haematologica.org/content/102/4.toc

Dasatinib and allogeneic stem cell transplantation enable sustained response in an elderly patient with RCSD1-ABL1-positive acute lymphoblastic leukemia
Miriam Frech et al.
http://www.haematologica.org/content/102/4/e160
