Editorials

- 191** Allogeneic stem cell transplantation for *FLT3* mutated acute myeloid leukemia in first complete remission: does age really matter?
Stefan. O. Ciurea
- 193** Large granular lymphocyte cells and immune dysregulation diseases – the chicken or the egg?
Anton W. Langerak and Jorn L.J.C. Assmann
- 195** Hemophilia A: different phenotypes may be explained by multiple and variable effects of the causative mutation in the *F8* gene
Giancarlo Castaman

Review Article

- 197** From transplant to novel cellular therapies in multiple myeloma: European Myeloma Network guidelines and future perspectives
Francesca Gay et al.

Articles

Bone Marrow Failure

- 212** Nationwide survey on the use of eltrombopag in patients with severe aplastic anemia: a report on behalf of the French Reference Center for Aplastic Anemia
Etienne Lengline et al.
- 221** Rational management approach to pure red cell aplasia
Suresh Kumar Balasubramanian et al.

Phagocyte Biology and Its Disorders

- 231** The clinical and laboratory evaluation of familial hemophagocytic lymphohistiocytosis and the importance of hepatic and spinal cord involvement: a single center experience
Burcin Beken et al.

Myelodysplastic Syndrome

- 237** Outcome after relapse of myelodysplastic syndrome and secondary acute myeloid leukemia following allogeneic stem cell transplantation: a retrospective registry analysis on 698 patients by the Chronic Malignancies Working Party of the European Society of Blood and Marrow Transplantation
Christoph Schmid et al.

Acute Myeloid Leukemia

- 246** Micro-ribonucleic acid-155 is a direct target of Meis1, but not a driver in acute myeloid leukemia
Edith Schneider et al.
- 256** Allogeneic stem cell transplantation benefits for patients ≥ 60 years with acute myeloid leukemia and *FLT3* internal tandem duplication: a study from the Acute Leukemia Working Party of the European Society for Blood and Marrow Transplantation
Xavier Poiré et al.

Acute Lymphoblastic Leukemia

- 266** *WT1* loss attenuates the TP53-induced DNA damage response in T-cell acute lymphoblastic leukemia
Fulvio Bordin et al.

Non-Hodgkin Lymphoma

- 278** Epstein-Barr virus-associated primary nodal T/NK-cell lymphoma shows a distinct molecular signature and copy number changes
Siok-Bian Ng et al.
- 288** A bioclinical prognostic model using MYC and BCL2 predicts outcome in relapsed/refractory diffuse large B-cell lymphoma
Mark Bosch et al.
- 297** Outcomes among North American patients with diffuse large B-cell lymphoma are independent of tumor Epstein-Barr virus positivity or immunosuppression
Sean I. Tracy et al.

Lymphoproliferative Disorders

- 304** Somatic *STAT3* mutations in Felty syndrome: an implication for a common pathogenesis with large granular lymphocyte leukemia
Paula Savola et al.

Chronic Lymphocytic Leukemia

- 313** Expression of *COBLL1* encoding novel ROR1 binding partner is robust predictor of survival in chronic lymphocytic leukemia
Hana Plešingerová et al.

Plasma Cell Disorders

- 325** Maternal embryonic leucine zipper kinase is a novel target for proliferation-associated high-risk myeloma
Arnold Bolomsky et al.
- 336** Prognostic significance of tumor burden assessed by whole-body magnetic resonance imaging in multiple myeloma patients treated with allogeneic stem cell transplantation
Jennifer Mosebach et al.

Coagulation & Its Disorders

- 344** Clustered *F8* missense mutations cause hemophilia A by combined alteration of splicing and protein biosynthesis and activity
Irving Donadon et al.
- 351** Complement C3 is a novel modulator of the anti-factor VIII immune response
Julie Rayes et al.

Blood Transfusion

- 361** Hypoxia modulates the purine salvage pathway and decreases red blood cell and supernatant levels of hypoxanthine during refrigerated storage
Travis Nemkov et al.

Obituary

- 373** Remembering Professor Felice Gavosto (February 16, 1921 – December 11, 2017)
Federico Caligaris Cappio, Massimo Aglietta, Clara Camaschella, Giuseppe Saglio and Robin Foà

Letters to the Editor

Letters are available online only at www.haematologica.org/content/103/2.toc

- e42** Alternatively spliced fibronectin extra domain A is required for hemangiogenic recovery upon bone marrow chemotherapy
Alessandro Malara et al.
<http://www.haematologica.org/content/103/2/e42>
- e46** Short-term administration of JAK2 inhibitors reduces splenomegaly in mouse models of β -thalassemia intermedia and major
Carla Casu et al.
<http://www.haematologica.org/content/103/2/e46>
- e50** Inflammatory molecule reduction with hydroxyurea therapy in children with sickle cell anemia
Rhiannon R. Penkert et al.
<http://www.haematologica.org/content/103/2/e50>
- e55** MDS1 and EVI1 complex locus (MECOM): a novel candidate gene for hereditary hematological malignancies
Tim Ripperger et al.
<http://www.haematologica.org/content/103/2/e55>
- e59** Knockdown of TP53 in ASXL1 negative background rescues apoptotic phenotype of human hematopoietic stem and progenitor cells but without overt malignant transformation
Susan Hilgendorf and Edo Vellenga
<http://www.haematologica.org/content/103/2/e59>
- e63** JAK2, CALR, MPL and ASXL1 mutational status correlates with distinct histological features in Philadelphia chromosome-negative myeloproliferative neoplasms
Waihay J. Wong et al.
<http://www.haematologica.org/content/103/2/e63>
- e69** Outcomes after allogeneic hematopoietic stem cell transplantation in patients with acute myeloid leukemia harboring t(7;11)(p15;p15)
Kaito Harada et al.
<http://www.haematologica.org/content/103/2/e69>
- e73** High PDGFRA expression does not serve as an effective therapeutic target in ERG-deleted B-cell precursor acute lymphoblastic leukemia
Isabel S. Jerchel et al.
<http://www.haematologica.org/content/103/2/e73>
- e78** GA101 P329GLALA, a variant of obinutuzumab with abolished ADCC, ADCP and CDC function but retained cell death induction, is as efficient as rituximab in B-cell depletion and antitumor activity
Sylvia Herter et al.
<http://www.haematologica.org/content/103/2/e78>

Case Reports

Case Reports are available online only at www.haematologica.org/content/103/2.toc

- e82** Worldwide study of hematopoietic allogeneic stem cell transplantation in pyruvate kinase deficiency
Stephanie van Straaten et al.
<http://www.haematologica.org/content/103/2/e82>
- e87** A novel AGGF1-PDGFR β fusion in pediatric T-cell acute lymphoblastic leukemia
Matthew S. Zabriskie et al.
<http://www.haematologica.org/content/103/2/e87>
- e92** Promising activity of selinexor in the treatment of a patient with refractory diffuse large B-cell lymphoma and central nervous system involvement
Sabela Bobillo et al.
<http://www.haematologica.org/content/103/2/e92>
