

Table of Contents

Volume 103, Issue 6: June 2018

Cover Figure

Peripheral blood smear from a patient with Sézary syndrome showing a monocyte and four Sézary cells containing rings of coarse Periodic acid-Schiff positive granules. Courtesy of Prof. Rosangela Invernizzi.

Editorials

- 919** Hematopoietic stem cells made BETter by inhibition
Ludovica Marando and Brian J. P. Huntly
- 921** NSG-S mice for acute myeloid leukemia, yes. For myelodysplastic syndrome, no.
Emmanuel Griessinger and Michael Andreeff
- 924** Defining the elusive boundaries of chronic active Epstein-Barr virus infection
Sebastian Fernandez-Pol et al.

Perspective

- 928** Present results and future perspectives in optimizing chronic myeloid leukemia therapy
Angelo M. Carella et al.

Review Article

- 931** Morphological, immunophenotypic, and genetic features of chronic lymphocytic leukemia with trisomy 12: a comprehensive review
Francesco Autore et al.

Articles

Hematopoiesis

- 939** BET-inhibition by JQ1 promotes proliferation and self-renewal capacity of hematopoietic stem cells
Mark Wroblewski et al.

Red Cell Biology & its Disorders

- 949** Recurring mutations in RPL15 are linked to hydrops fetalis and treatment independence in Diamond-Blackfan anemia
Marcin W. Wlodarski et al.

Myelodysplastic Syndromes

- 959** Cytokines increase engraftment of human acute myeloid leukemia cells in immunocompromised mice but not engraftment of human myelodysplastic syndrome cells
Maria Krevvata et al.

Myeloproliferative Neoplasms

- 972** Impact of hydroxycarbamide and interferon- α on red cell adhesion and membrane protein expression in polycythemia vera
Mégane Brusson et al.

Acute Myeloid Leukemia

- 982** A novel regimen for relapsed/refractory adult acute myeloid leukemia using a *KMT2A* partial tandem duplication targeted therapy: results of phase 1 study NCI 8485
Alice S. Mims et al.
- 988** Dexamethasone in hyperleukocytic acute myeloid leukemia
Sarah Bertoli et al.

Acute Lymphoblastic Leukemia

- 999** Fit $\alpha\beta$ T-cell receptor suppresses leukemogenesis of Pten-deficient thymocytes
Stéphanie Gon et al.
- 1008** Leukemia reconstitution *in vivo* is driven by cells in early cell cycle and low metabolic state
Luca Trentin et al.

Non-Hodgkin Lymphoma

- 1018** A distinct subtype of Epstein-Barr virus-positive T/NK-cell lymphoproliferative disorder: adult patients with chronic active Epstein-Barr virus infection-like features
Keisuke Kawamoto et al.
- 1029** Highly sensitive MYD88^{L265P} mutation detection by droplet digital polymerase chain reaction in Waldenström macroglobulinemia
Daniela Drandi et al.

Chronic Lymphocytic Leukemia

- 1038** DNA polymerase γ gene expression influences fludarabine resistance in chronic lymphocytic leukemia independently of p53 status
Srdana Grgurevic et al.

Plasma Cell Disorders

- 1047** Treatment to suppression of focal lesions on positron emission tomography-computed tomography is a therapeutic goal in newly diagnosed multiple myeloma
Faith E. Davies et al.

Stem Cell Transplantation

- 1054** A second-generation 15-PGDH inhibitor promotes bone marrow transplant recovery independently of age, transplant dose and granulocyte colony-stimulating factor support
Amar Desai et al.

Cell Therapy & Immunotherapy

- 1065** Targeting the anion exchanger 2 with specific peptides as a new therapeutic approach in B lymphoid neoplasms
Jon Celay et al.

Coagulation & its Disorders

- 1073** Structural and cellular mechanisms of peptidyl-prolyl isomerase Pin1-mediated enhancement of Tissue Factor gene expression, protein half-life, and pro-coagulant activity
Kondababu Kurakula et al.
- 1083** Mass spectrometry-assisted identification of ADAMTS13-derived peptides presented on HLA-DR and HLA-DQ
Johana Hrdinová et al.

Letters to the Editor

Letters are available online only at www.haematologica.org/content/103/6.toc

- e230** Memory CD8⁺ T cells support the maintenance of hematopoietic stem cells in the bone marrow
Sulima Geerman et al.
<http://www.haematologica.org/content/103/6/e230>
- e234** Shortened telomeres in essential thrombocythemia: clinicopathological and treatment correlations
Samah Alimam et al.
<http://www.haematologica.org/content/103/6/e234>
- e237** Outcomes of a large cohort of individuals with clinically ascertained high-count monoclonal B-cell lymphocytosis
Sameer A. Parikh et al.
<http://www.haematologica.org/content/103/6/e237>

- e241** Liquid biopsy for the identification of intravascular large B-cell lymphoma
Yasuhiro Suehara et al.
<http://www.haematologica.org/content/103/6/e241>
- e245** Circulating tumor DNA as a liquid biopsy in plasma cell dyscrasias
Bernhard Gerber et al.
<http://www.haematologica.org/content/103/6/e245>
- e249** Survival adjusting for crossover: phase 3 study of ibrutinib vs. chlorambucil in older patients with untreated chronic lymphocytic leukemia/small lymphocytic lymphoma
Steven Coutre et al.
<http://www.haematologica.org/content/103/6/e249>
- e252** Non-myeloablative allogeneic hematopoietic cell transplantation for relapsed or refractory Waldenström macroglobulinemia: evidence for a graft-versus-lymphoma effect
Enrico Maffini et al.
<http://www.haematologica.org/content/103/6/e252>
- e256** The contribution of platelet glycoprotein receptors to inflammatory bleeding prevention is stimulus and organ dependent
Julie Rayes et al.
<http://www.haematologica.org/content/103/6/e256>
- e259** A novel variant Glanzmann thrombasthenia due to co-inheritance of a loss- and a gain-of-function mutation of *ITGB3*: evidence of a dominant effect of gain-of-function mutations
Loredana Bury et al.
<http://www.haematologica.org/content/103/6/e259>
- e264** Long-term management of leukocyte adhesion deficiency type III without hematopoietic stem cell transplantation
Paul Saultier et al.
