Editorial

Primum non nocere: balancing allogeneic and autologous transfusion risks with a 'society perspective'

Paolo Rebulla 673-675

Original papers

The usefulness of the serum transferrin receptor in detecting iron deficiency in the anemia of chronic disorders

Jordi Juncà, Francesc Fernández-Avilés, Albert Oriol, Josep Tomas Navarro, Fuensanta Millá, Juan M. Sancho, Evarist Feliu 676-680

Rapid and simple immunophenotypic characterization of lymphocytes using a new test

Mar Bellido, Enriqueta Rubiol, Josep Ubeda, Camino Estivill, Olga López, Rosa Manteiga, Josep F. Nomdedéu 681-685

Serine protease detection in mixed lymphocyte cultures: a histochemical method for possible prediction of graft-versus-host disease

Maria Angela Maiocchi, Rosanna Nano, Enrica Capelli, Maurizio Bonfichi, Emilio Paolo Alessandrino, Paolo Bernasconi 686-689

Low number of DNA copy number changes in small lymphocytic lymphoma

Kirsi Autio, Yan Aalto, Kaarle Franssila, Erkki Elonen, Heikki Joensuu, Sakari Knuutila 690-692

Clinical implications of the types of cryoglobulins determined by two-dimensional polyacrylamide gel electrophoresis

Jean-Daniel Tissot, Maurizio Pietrogrande, Lucia Testoni, Fulvio Invernizzi 693-700

Determinants of fibrinogen in an Italian population suffering from claudication. Lower fibrinogen in the south compared to middle and north of Italy

Stefania Basili, Massimo Milani, Aldo Longoni, Mario Vieri, Luigi Iuliano, Francesco Violi and the ADEP Group 701-707

Multiple myeloma index: verification of a new prognostic approach with evaluation of treatment response

Roberto Bettini, Massimo Tonolini, Maria Elena Bernasconi 708-713

Management of acute promyelocytic leukemia relapse in the ATRA era

Carlo Castagnola, Monia Lunghi, Alessandro Corso, Monica Tajana, Patrizia Zappasodi, Melissa Dabusti, Mario Lazzarino, Carlo Bernasconi 714-717

Autologous platelet transfusion in patients receiving high-dose chemotherapy and circulating progenitor cell transplantation for stage II/III breast cancer

Paolo Pedrazzoli, Cesare Perotti, Patrizia Noris, Gian Antonio Da Prada, Carlo Zibera, Manuela Battaglia, Nadia Gibelli, Piero Preti, Lorenzo Pavesi, Lorella Torretta, Carlo L. Balduini, Laura Salvaneschi, Giocchino Robustelli della Cuna 718-723

Reviews

Biology of erythropoietin

Catherine Lacombe, Patrick Mayeux . . . 724-732

Stem cell transplantation for severe autoimmune diseases: progress and problems

Alberto M. Marmont 733-743

Case of the month

Detection of *bcr/abl* mRNA in a case of chronic myelogenous leukemia in long-term remission: CML or sensitivity of detection?

Eduardo Anguita, Ana Villegas, Joaquín Díaz-Medavilla, F. Ataulfo González, Eloy del Potro, Domingo Espinós 744-747

The irreplaceable image

Nail changes after chemotherapy

German Las Heras, Jordi Juncà Piera 748

Hemoglobin levels and platelet counts after iron therapy in iron deficiency anemia

Joan Cid, Miguel Lozano 749

Scientific Letters

Acute myeloblastic leukemia with trilineage myelodysplasia and CD34⁺ blast cells with abnormal chromatin clumping

Santiago Gil, Elisa Luño, José A. Rodríguez . 750-751

Familial hairy cell leukemia: a HLA-linked disease or farmers-linked disease?
Luis Felipe Casado, Pilar Mouleon, Blanca Villarrubia, Maria del Carmen Toledo, Maria del Carmen Martinez-Frejo 751-752

Tumor burden and serum level of soluble CD25, CD8, CD23, CD54 and CD44 in non-Hodgkin's lymphoma
Manuel Pérez-Encinas, Mercedes Villamayor, Alfredo Campos, Sonia González, José L. Bello 752-754

Thyroid volume is progressively reduced as a sequela of neck irradiation for childhood Hodgkin's disease
Grazia Bossi, Daniela Larizza, Grazia Sommaruga, Franco Corbella, Catherine Klersy, Maurizio Aricò 754-756

Chlorambucil synergizes with purine analogs in inducing in vitro cytotoxicity in B-cell chronic lymphocytic leukemia
Ida Callea, Giuseppe Console, Giuseppina Sculli, Monica Filangeri, Giuseppe Messina, Fortunato Morabito 756-757

Secondary acute myeloid leukemia following treatment with VP16-containing regimens for non-Hodgkin's lymphoma
Ester Orlandi, Mario Lazzarino, Paolo Bernasconi, Cesare Astori, Carlo Bernasconi 758-759

Pulmonary multinodular relapse of non-Hodgkin's lymphoma
José María Arguiñano, Encarnación Pérez Equiza, Ana María Gorosquieta 759-760

Pathologic rupture of the spleen as the initial manifestation in acute lymphoblastic leukemia
Silvia Bernat, Raimundo García Boyero, María Guinot, Francisca López, Teresa Gozalbo, Guillermo Cañigral 760-761

Interferon- α 2b is not effective in the treatment of refractory immune thrombocytopenic purpura
Nicola Vianelli, Pier Luigi Tazzari, Stefano Baravelli, Francesca Ricci, Lelia Valdrè, Sante Tura 761-763

Long-term disappearance of previous chromosomal abnormalities in myelodysplastic syndromes treated with low dose cytosine arabinoside and granulocyte/macrophage-colony stimulating factor
José Luis Sastre, Carlos Ulibarrena, María Bustillo, Mar Suárez-Gago, María Socorro García-Torremocha, María Obedulia Vázquez 763-765

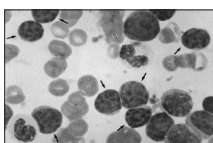

Alloimmunization against human platelet antigen 2 (HPA2) in a series of multi-transfused β -thalassemia patients
Pier Luigi Tazzari, Francesca Ricci, Cristina Tassi, Andrea Bontadini, Fiorenza Fruet, Roberto Conte 765-766

Spontaneous decrease of spleen size in a patient with type 1 Gaucher's disease
Meir Djaldetti, Rachel Straussberg, Hanna Bessler, Ari Zimran, Amos M. Cohen 766-767

Acute leukemias after treatment with radioiodine for thyroid cancer
Vanessa Roldán Schilling, Pascual Fernández Abel-lán, José Ramón Domínguez Escribano, Concepción Rivas González, Enrique Mut Barberá, Ramiro Calatayud Cendra 767-768

Meeting announcements

Haematologica
is a Latin adjective, neuter and plural,
used in this context as a noun:
it means "hematological subjects".
The appropriate English translation is therefore
Journal of Hematology.

On the cover. Numerous bone marrow blasts (arrows) presenting blocks of heterochromatin separated by clear zones and two mature granulocytes with pseudo-Pelger anomaly (May-Grünwald-Giemsa $\times 1,000$).
