

This Month in Haematologica

641-644 June 2004

Editorials, Comments & Views645-650 Issues surrounding therapeutic choices for hemophilia patients
H. Marijke van den Berg

650 Hemophilia research in Haematologica

Research Papers651-656 *Paroxysmal Nocturnal Hemoglobinuria*
Increased resistance of PIG-A⁻ bone marrow progenitors to tumor necrosis factor and interferon: possible implications for the *in vivo* dominance of paroxysmal nocturnal hemoglobinuria clones
*Wilma Barcellini, Elisa Fermo, Francesca Guia Imperiali, Anna Zaninoni, Paola Bianchi, Carla Boschetti, Alberto Zanella*657-663 *Chronic Myeloproliferative Disorders*
Increased levels of plasma interleukin-6 soluble receptor in patients with essential thrombocythemia
*Rosana Marta, Nora Goettem, Paola Lev, Paula Heller, Laura Kornblitt, Patricia Vassallú, Ana Glembotsky, Carlos Pirola, Felisa Molinas*664-670 *Acute Myeloid Leukemia*
Polymorphisms of CYP1A1 and glutathione S-transferase and susceptibility to adult acute myeloid leukemia
*Francesco D'Alò, Maria Teresa Voso, Francesco Guidi, Giuseppina Massini, Alessandra Scardocci, Simona Sica, Livio Pagano, Stefan Hohaus, Giuseppe Leone*671-678 *Acute Lymphoblastic Leukemia*
Two dual-color split signal fluorescence *in situ* hybridization FISH assays to detect t(5;14) involving HOX11L2 or CSX in T-cell acute lymphoblastic leukemia
*Laura J.C.M. van Zutven, Sandra C.J.M. Velthuisen, Ingrid L.M. Wolvers-Tettero, Jacques J.M. van Dongen, Tim S. Poulsen, Roderick A.F. MacLeod, H. Berna Beverloo, Anton W. Langerak*679-685 *Hodgkin's Lymphoma*
Real-time polymerase chain reaction cytokine determination of mRNA expression profiles in Hodgkin's lymphoma
*Maria Malec, Margareta Söderqvist, Allan Sirsjö, Barbara MacNamara, Nongnit Lewin, Jan Sjöberg, Magnus Björkholm, Anna Porwit-MacDonald*686-695 *Malignant Lymphomas*
Increased expression of Ki-67 in mantle cell lymphoma is associated with deregulation of several cell cycle regulatory components, as identified by global gene expression analysis
*Sara Ek, Erik Björck, Anna Porwit-MacDonald, Magnus Nordenskjöld, Carl A.K. Borrebaeck*696-703 *Disorders of Hemostasis*
Association of anti-idiotypic antibodies with immune tolerance induction for the treatment of hemophilia A with inhibitors
*Yoshihiko Sakurai, Midori Shima, Ichiro Tanaka, Kazuyoshi Fukuda, Koichi Yoshida, Akira Yoshioka*704-709 *Disorders of Hemostasis*
Analysis of biological phenotypes from 42 patients with inherited FVII deficiency: can biological tests predict the bleeding risk?
*Muriel Giansily-Blazot, Régis Verdier, Christine Biron-Adréani, Jean-François Schved, and the study group of FVII deficiency*710-716 *Stem Cell Transplantation*
Cytokine production during myeloablative and reduced intensity therapy before allogeneic stem cell transplantation
*Mats Remberger, Berit Sundberg***Decision Making & Problem Solving**717-741 *Multiple Myeloma*
Management of multiple myeloma and related disorders: guidelines from the Italian Society of Hematology (SIE), Italian Society of Experimental Hematology (SIES) and Italian Group for Bone Marrow Transplantation (GITMO)
*Giovanni Barosi, Mario Boccadoro, Michele Cavo, Paolo Corradini, Monia Marchetti, Massimo Massaia, Giampaolo Merlini, Patrizia Tosi, Sante Tura***Letters to the Editor**742-743 *Disorders of Iron Metabolism*
Prevalence of the G320V mutation of HJV gene, associated with juvenile hemochromatosis, in Greece
*Maria Pissia, Katerina Polonifi, Marianna Politou, Konstantinos Lilakos, Nikos Sakellaropoulos, George Papanikolaou*743-745 *Red Cell Disorders*
Hb Gun Hill: a further *de novo* observation
*Maria De Angioletti, Giuseppina Lacerra, Rosario Testa, Angela Flagiello, Gino Schilirò, Clementina Carestia*746-747 *Red Cell Disorders*
The molecular basis of β -thalassemia in Argentina. Influence of the pattern of immigration from the Mediterranean basin
Liliana C. Rossetti, Héctor M. Targovnik, Viviana Varela

748-749	<i>Red Cell Disorders</i> Impact of erythropoietic activity on red cell parameters in chronic renal failure patients <i>Christophe Bovy, Jean-Marie Krzesinski, André Gotthot, Yves Beguin</i>	758-759	<i>Disorders of Hemostasis</i> Duplication of exon 13 causes one third of the cases of mild hemophilia A in northern Italy <i>Maura Aquila, Mirella Pasino, Tiziana Lanza, Federico Bottini, Angelo Claudio Molinari, Maria Patrizia Bicocchi</i>
749-751	<i>Chronic Myeloproliferative Disorders</i> Instability of PRV-1 mRNA: a factor to be considered in PRV-1 quantification for the diagnosis of polycythemia vera <i>Jaroslav Jelinek, Katerina Jedlickova, Yongli Guan, Josef T. Prchal</i>	759-761	<i>Disorders of Hemostasis</i> Treatment of acquired factor VIII inhibitor with recombinant activated factor VIIa: data from the Italian registry of acquired hemophilia <i>Francesco Baudo, Francesco de Cataldo, Gianluca Gaidano</i>
751-752	<i>Malignant Lymphomas</i> Efficacy of a modified Stanford V regimen in patients with advanced Hodgkin's lymphoma <i>Stefan Hohaus, Annalaura Di Febo, Sergio Storti, Luciana Teofili, Maria Teresa Voso, Giuseppe Leone</i>	761-762	<i>Disorders of Hemostasis</i> Rescue of activated protein C-resistance phenotype by <i>cis</i> -acting factor V Gly2032Asp mutation <i>Rosanna Asselta, Anna Bossone, Luigi Iannaccone, Stefano Duga, Vincenzo Brancaccio, Maurizio Margaglione</i>
753-754	<i>Malignant Lymphomas</i> Intraventricular treatment of relapsed central nervous system lymphoma with the anti-CD20 antibody rituximab <i>Holger Schulz, Hendrik Pels, Ingo Schmidt-Wolf, Ulrich Zeelen, Ulrich Germing, Andreas Engert</i>	763-764	<i>Bone Marrow Transplantation</i> Definition of myeloid engraftment after allogeneic hematopoietic stem cell transplantation <i>Christopher Rihm, Jeffrey Cilley, Payal Naik, Amit Verma, Jennifer Pedicano, Jayesh Mehta</i>
755-756	<i>Monoclonal Gammopathies</i> CD45RA ⁺ and CD45RO ⁺ blood T-helper lymphocyte subpopulations in patients with monoclonal gammopathies: correlations with diagnosis, clinical stage and treatment status <i>José María Raya Sánchez, Luis Hernández Nieto, María Luisa Brito Barroso, Gloria González Brito, María del Mar Caballero Gómez</i>	<hr/> Continuing Medical Education <hr/>	
757-758	<i>Disorders of Hemostasis</i> Role of fibrinolysis in tissue-factor-induced disseminated intravascular coagulation in rats – an effect of tranexamic acid <i>Hidesaku Asakura, Yoko Sano, Masabide Yamazaki, Eriko Morishita, Ken-ichi Miyamoto, Shinji Nakao</i>	765	Paroxysmal nocturnal hemoglobinuria
		766	A B-cell lymphoproliferative disorder
		767	An acute leukemia with granular blasts
		768	Reduced-intensity allogeneic hematopoietic stem cell transplantation
