Chronic Myeloproliferative Disorders

292 Comparison of placebo and best available therapy for the treatment of myelofibrosis in the phase 3 COMFORT studies
Rubén A. Mesa, et al.

Acute Myeloid Leukemia

299 Normal karyotype is a poor prognostic factor in myeloid leukemia of Down syndrome: a retrospective, international study
Marjolein Blink, et al.

308 Intensive induction is effective in selected octogenarian acute myeloid leukemia patients: prognostic significance of karyotype and selected molecular markers used in the European LeukemiaNet classification
Meir Wetzler, et al.

Acute Lymphoblastic Leukemia

314 Impact of promoter polymorphisms in key regulators of the intrinsic apoptosis pathway on the outcome of childhood acute lymphoblastic leukemia
Rocio Sanchez, et al.

322 Unrelated umbilical cord blood transplant for adult acute lymphoblastic leukemia in first and second complete remission: a comparison with allografts from adult unrelated donors
David I. Marks, et al.

Chronic Lymphocytic Leukemia

329 Multiple productive immunoglobulin heavy chain gene rearrangements in chronic lymphocytic leukemia are mostly derived from independent clones
Karla Plevova, et al.

Non-Hodgkin Lymphoma

339 Actual prognosis during follow-up of survivors of B-cell non-Hodgkin lymphoma in the Netherlands
Saskia A.M. van de Schans, et al.

346 Risk factors for Epstein-Barr virus-related post-transplant lymphoproliferative disease after allogeneic hematopoietic stem cell transplantation
Michael Uhlin, et al.

Multiple Myeloma

353 Chromosome 1q21 gains confer inferior outcomes in multiple myeloma treated with bortezomib but copy number variation and percentage of plasma cells involved have no additional prognostic value
Gang An, et al.

360 Soft-tissue extramedullary multiple myeloma prognosis is significantly worse in comparison to bone-related extramedullary relapse
Ludek Pour, et al.

Stem Cell Transplantation

365 Development of a coordinated allo T cell and auto B cell response against autosomal PTK2B after allogeneic hematopoietic stem cell transplantation
Anita N. Kremer, et al.

370 Alternative donor hematopoietic stem cell transplantation for mature lymphoid malignancies after reduced-intensity conditioning regimen: similar outcomes with umbilical cord blood and unrelated donor peripheral blood
Celso Arrais Rodrigues, et al.

378 Umbilical cord blood transplantation from unrelated donors in patients with Philadelphia chromosome-positive acute lymphoblastic leukemia
José Luis Piñana, et al.

385 Response endpoints and failure-free survival after initial treatment for acute graft-versus-host disease
Yoshihiro Inamoto, et al.
Supportive Care in Hematology

392 Long-term risks after splenectomy among 8,149 cancer-free American veterans: a cohort study with up to 27 years follow-up
Sigurdur Y. Kristinsson, et al.

Obituary

399 Remembering Professor Peter Jacobs (21 March 1934 – 18 November 2013)
Robin Foa, et al.

Errata Corrige

400 European guidelines for empirical antibacterial therapy for febrile neutropenic patients in the era of growing resistance: summary of the 2011 4th European Conference on Infections in Leukemia
Diana Averbuch, et al.

Letters to the Editor

Letters are available online only at www.haematologica.org/content/99/2.toc

e14 High XBP1 expression is a marker of better outcome in multiple myeloma patients treated with bortezomib
Manuela Gambella, et al.
http://www.haematologica.org/content/99/2/e14

e17 Efficacy and safety of sildenafil for the treatment of severe pulmonary hypertension in patients with hemoglobinopathies: results from a long-term follow up
Giorgio Derchi, et al.
http://www.haematologica.org/content/99/2/e17

Elizabeth S. Klings, et al.
http://www.haematologica.org/content/99/2/e19

e20 Rare coincident NPM1 and RUNX1 mutations in intermediate risk acute myeloid leukemia display similar patterns to single mutated cases
Annette Fasan, et al.
http://www.haematologica.org/content/99/2/e20

e22 Reply to “Rare coincident NPM1 and RUNX1 mutations in intermediate risk acute myeloid leukemia display similar patterns to single mutated cases”. Haematologica 2014;99(2):e20-21.
Jason H. Mendl, et al.
http://www.haematologica.org/content/99/2/e22

e23 Germ line variants in IKZF1, ARID5B, and CEBPE as risk factors for adult-onset acute lymphoblastic leukemia: an analysis from the GMALL study group
Thomas Burmeister, et al.
http://www.haematologica.org/content/99/2/e23

e26 Clinical challenges related to novel oral anticoagulants: drug-drug interactions and monitoring
Renske Altena, et al.
http://www.haematologica.org/content/99/2/e26

e28 Comment on Ferroni et al.: “Impact of chemotherapy on venous thromboembolism. Comment to: Regional lymph node metastases are a strong risk factor for venous thromboembolism: results from the Vienna Cancer and Thrombosis Study” HAEMATOL/2012/073338 and HAEMATOL/2013/092528
Boris Dickmann, et al.
