Manuscript no. HAEMATOL/2010/038414 entitled “Erythropoietin receptor is detectable on peripheral blood lymphocytes and its expression increases in activated T lymphocytes”

Authors: Katarzyna A. Lisowska, Ewa Bryl, Jacek M. Witkowski

Information about the contributions of each person named as having participated in the study

1) Guarantor(s), i.e., person(s) who is (are) responsible for the integrity of the work as a whole:
   • Katarzyna A. Lisowska, Department of Pathophysiology, Medical University of Gdańsk, Poland, katlis@gumed.edu.pl

According to the International Committee of Medical Journal Editors (ICMJE) (http://www.icmje.org/ethical_1author.html): “Authorship credit should be based on: 1) substantial contributions to conception and design, acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Authors should meet conditions 1, 2, and 3 …………………… Acquisition of funding, collection of data, or general supervision of the research group alone does not constitute authorship”.

The guarantors of this manuscript confirm that all persons designated as authors qualify for authorship, and that each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content.

2) Authors who participated in the conception of the study: Ewa Bryl

3) Design & Methods. The following authors were responsible for specific investigations (please detail):
   • Katarzyna A. Lisowska was responsible for designing method of flow cytometric assessment of number of EPO-R molecules on T lymphocytes' surface.

4) Results. The following authors were responsible for specific portions of the results, including figures and tables:
   • Katarzyna A. Lisowska was responsible for preparing Figure 1.

5) Writing the manuscript. The following authors were responsible for writing the manuscript:
   • Katarzyna A. Lisowska was responsible for preparing manuscript.
   • Ewa Bryl and Jacek M. Witkowski were responsible for substantial supervision.

6) Contributors Listed in Acknowledgments:
   This work was supported by a Polish Committee for Scientific Research grants: P05B 077 24 and N N402 2144 34.
